GRAND RAPIDS PRESBYTERY.

The Annual Session Convened on the West Side Last Night.

The Grand Rapids Presbytery began its annual spring session in this city last evening in the First Presbyterian church on the corner of Scribner and First streets. The synod embraces the northwestern part of the lower peninsula and is represented at this annual meeting by thirty delegates. The rotating moderator, the Rev. R. S. Goodman of this city, delivered his annual sermon after which the delegates proceeded to the election of a moderator for the ensuing year. The Rev. George S. Rawson of Muir, was elected on the first ballot. The meeting will open this morning at 9 o'clock and will continue with three sessions, morning, afternoon and evening. The Ladies' Missionary society will hold a meeting this morning in the lecture room beginning at 9 o'clock. The day sessions will be devoted to the transaction of business pertaining to the diocese, the reports of committees, and the election of new committees. The evening session will be given over to the discussion of popular subjects. All are invited to attend the meetings.

TREES FOR ARBOR DAY.

Secretary Thompson is Anxious to Have Many Planted.

The Hill Tree association has planted 300 trees this spring and has about exhausted its supply of stock. The Hon. Geo. W. Thompson, secretary of the association, said yesterday that he had received several applications for trees that he was not able to fill. He also said that the trees set around the U. B. A. home have died and that new ones ought to be set in their places. The lawn surrounding the home is barren of trees or shrubbery, and if fairly persons would each set a tree on Arbor Day the surroundings would be greatly beautified at a small expense. Persons having no homes could bestow a great blessing on the public by planting a tree there. Mr. Thompson would like to have a few tree men call on him and give their lowest figures on trees for that purpose, so that he can inform those who would like to have a tree in their home on Arbor Day about what the expense would be, and where they can obtain it.

RAN OVER A CHILD.

A Little Youngster Under the Wheels—A Young Man's Conduct.

The little 4-year-old girl of Mr. and Mrs. Hann of Morrison street, was seriously injured yesterday afternoon by being run over by a horse and buggy. The little girl, with others, was playing in the street, when a reckless young man came driving rapidly by with a horse attached to a phaeton. The child was unable to get out of the way and she was knocked down, the horse and carriage passing over her. Seeing what he had done, the driver of the horse and buggy, turned his horse and drove on. The child was soon out of sight, leaving the little girl in the street. Her playmates picked her up and carried her into the house. A severe gash was cut in her forehead and several bad bruises were found on her body. The people in that vicinity are quite indignant over the young man's actions and they are making an effort to find out who he is. Mr. Hann in general freight agent of the C. & W. M. R. way.

BURNS CLUB PLANS.

An Entertainment to be Given—A Hall Is Reserved.

The committee recently appointed by the Burns club to make arrangements for an entertainment to be given by the club, held a meeting last evening in Dr. W. H. Ross' office and started the preliminary work. It was decided to give a literary and musical entertainment on Friday evening, May 13, in Good Templar's hall in the McMillen block. The club has authorized the board of trustees to contract for the use of the hall on the second and fourth Friday evenings of each month for club meetings and entertainments. The latter part of June they will give an excursion down the river to some point suitable for picnic grounds, where Scottish games can be indulged in and all of the conveniences for Scottish enjoyments can be procured.

FUN AT SISON & LILLEY'S.

Good Speed at Yesterday's Initial Scrub Races.

A big crowd and slathers of fun characterized the informal opening of the Grand Rapids racing season at Sison & Lilley's track yesterday afternoon. Six horses were entered in the scrub race. J. H. Meyer's "Frank Meyer" won the second and third heats, time, 1:40, 1:36. Joseph Crater's "Stuckfast" won the first heat, time, 1:37. Art Albee's "Prince" was third, J. J. Rice's "Bay Prince" fourth, Fred Young's "Red" fifth and Dr. James A. McPherson's "Edward" succeeded in putting his owner in the hole for an oyster supper. E. B. Dikeman and John McIntyre, Sr., acted as judges.

Grand Rapids Day by Day.

The complaint made by some adies a few days since about the crowd of hackmen who lounge on the north side of Pearl street, seems well founded and the suggestion that they move elsewhere was one. Passing there on Monday the writer overheard a dozen coarse epithets within the block even more offensive than profanity. Pearl street is a public thoroughfare connecting a large residential section with the business center, and is not entitled to the audience mentioned. Let the hacks be placed around the corner on Campus street.

Superintendent Chapman should issue an order to the effect that cars going in opposite directions should not pass at the same time over a street crossing. This is frequently done. An old woman was observed to get caught between the cars the other day and her fright came nearly causing her to plunge in front of the motor. Good plan to halt one car, and give pedestrians a chance to get by and prevent nervous travelers from losing their wits and getting hurt.

Except during the time of the races Grand Rapids will be dull this summer, so far as outdoor sports are concerned.

There will be no ball or cricket, and amusement will have to be sought in the numerous urban resorts. However, pool boards have been erected in several places in the city, and the lovers of these balls, who are numerous here, will have a chance each day to take a monetary interest in the games played by the various leagues.

Fashionable Grand Rapids was out in large numbers to hear the University club, and the incessant clapping of hands was marked. Judging from the sedate manner in which local swindlers usually behave in the theater, it was supposed that they regarded applause as vulgar. Circumstances alter, etc., there is a vast and inconvertible difference between a budding collegiate and a strolling play actor.

An old truism is that doctors disagree. The same is a fact with the good men who direct the destinies of the church, according to the report of the official board of the Division Street Methodist church held the other evening.

The Bicycle club is going to have a tournament, and will go into the country. During their absence pedestrians can cross Canal, Monroe and other business streets in perfect safety.

This, together with thousands of convincing testimonials from all parts of the world, is positive evidence of their value.

Brandreth's Pills are purely vegetable, absolutely harmless, and safe to take at any time.

A. W. Weeks Elected Chairman of the Supervisors

BY ALMOST UNANIMOUS VOTE

Little Claims Presented and Referred at the Opening Session Yesterday. The New Court House.

The special session of the board of supervisors was called to order yesterday by County Clerk Harvey on the fourth floor of the city hall, at 2 o'clock p. m. Supervisor Colson of Caledonia was made temporary presiding officer. The first business was the election of a chairman for the coming year. Supervisors Loomis and Gould were appointed tellers, and a vote was ordered. The first ballot showed all the members present, thirty-nine, and resulted in the election of Supervisor A. W. Weeks of Lowell, by a vote of 33 to 4 scattering. Mr. Weeks thanked his colleagues in a very pleasant speech for the honor conferred upon him in such a prominent and important position as Kent, and promised faithful service. After the board had been organized, charges preferred by several taxpayers against County Drain Commissioner Chambers were read. He is charged with incompetency and failure to do as required by law. The matter will be referred to the committee on drains as soon as announced.

Divers Claims Presented. A claim for \$300 from H. E. Doren for work on the county court house was laid on the table pending appointment of committees. M. B. Church, president of the Valley City Transportation company, appeared, and explained the need of immediate action in regard to placing a draw in the railroad bridge. The company is to build a dock at the west end of Fulton street bridge and it wants the matter to be given immediate attention. The petition was referred to a special committee consisting of Supervisors Gill, Sullivan, Steels and the prosecuting attorney. Dr. Supervisor Jacob W. Walker of Vergennes, who had been a member of the board for twenty-nine years, declined a re-nomination, consequently is not a member of the present board. He was a member of the court house building committee, and on motion of Supervisor Gould he was continued on the committee. The committee reported that the court house was ready for occupancy by July 1. The board adjourned until this morning.

DEFENDS THE BIKES.

The Great Majority of Wheelmen Are Careful and Considerate.

EDITOR HERALD—Your sweeping article on "Bicycle Joggers" in today's HERALD both surprised and pained the 990 "cyclists of Grand Rapids who are not "bicycle Joggers," neither do they desire to gain that distinction in the minds of a discriminating

and generous public. Someone one reckless, incompetent rider who seems to have been devoid of sense, decency and manhood rides into, smashes down and injures a woman, it is not justice to class the hundreds of careful and respectable "cyclists of both sexes as "Joggers," and I'm sure you do not wish to visit the sins of one on the many. There is no more law abiding or honorable class of young men in Grand Rapids or America generally than the thousands of "cyclists who are doing incalculable good for the improvement of streets, roads, etc., and are among the most progressive and healthy element of young America. Regarding muscular legs and feminine ankles, surely no man or woman is ashamed of these gifts of nature, and the country wants one of them for its good. If you will compute the number of accidents caused by furious carriage driving and that of reckless cycling you will find cyclists do not transgress a hundredth part of that of the carriage or horse driver. The streets are common property under the law and well regulated cycling cannot be "fired" from road or street as the supreme court of this country have decided time and again. The cyclists of America court the good will of the non-cycling public who will soon recognize in cyclists a great moral force for the betterment of humanity, and the prosperity of the country by furthering a healthy agitation for the improvement of physical culture and improvement of much needed improved highways. All we ask is that we be judged by our works.

GREAT EXCITEMENT!

IN GRAND RAPIDS

Words Fail To Do It

Justice.

A Cripple of Twenty Years Made Whole in a Few Minutes—Dr. French's Gift.

The most marvelous and charitable work ever done in Grand Rapids is being performed every morning by Dr. French, from 10 to 11 o'clock in Hartman's Hall. The excitement created by his wonderful healing of the sick is something seldom witnessed in a public hall. It is simply impossible to describe the scenes that take place in the hall and must be witnessed to be believed. People flock around him by the scores to be healed and hundreds go to spectators. Yes, on Monday a man came upon the stage saying that he had suffered twenty years in his side from the side of a horse, and that Doctor French had cured him in a few minutes a few days before, and suiting the action to the statement he ran about the stage tripping and tripping the doctor. A lady came up, badly crippled with rheumatism and paralysis. She stated to the audience that she had not raised her arm for three years. The doctor, taking her hand, made a few passes across the weak and painful parts, moaning and bending the joints till she gave the most positive evidence of perfect control. A lady who had a tumor on her neck the size of a hen's egg was greatly surprised to find that it had disappeared in a few minutes under the application of Dr. French's hand. A man who had been deaf ten years was made to hear the softest whisper in a few minutes. Men with stiff knees and stiff hips and lame backs and bad stomachs were made well under Dr. French's magnetic touch. The crowd would shout and praise the doctor, and the audience would join them in cheers and signs of sympathetic rejoicing. The doctor gave a free lecture to ladies Tuesday morning and will Friday a. m. from 10 to 11 o'clock. Every one or say all are admitted to the hall. The doctor is located at the Yeacome hotel where consultations are free. He cures all forms of diseases and no one can afford to miss calling on him. Office hours from 9 to 6, except when at hall.
